CED POLICY PRIORITIES

- Defend CED leading role in EU as a representative of the whole dental profession, improving our reputation with competence, efficiency, trustworthiness, transparency
- Strengthen CED lobbying action through CED Members unanimous support to our

principles, pursuing shared decisions, statements and resolutions.

- Lobby for a high quality dental education in european universities, respecting minimum theoretical and practical training requirements, preventing hazardous partnerships with extra-EU universities
- Make health and namely oral health a priority in EU policies, collaborating with health professional organisations (CPME, PGEU, FVE) and undertaking any action to increase availability of EU funding for prevention and research and to preserve DG SANTE from any attempt to shift health issues to other DGs
- Defend liberal dental practice as a crucial component of the European liberal professions.
- Safeguard the delivery of any dental healthcare as performed only by dentists or under their direct supervision and control
- Reaffirm the predominance of dental ethics upon any marketing influence in patient/dentist relationship.
- Carry on a continuous improvement of CED communication strategy, enhancing quality and quantity of documents and tools available for members' lobbying action.
- Increase opportunities for CED Members to actively participate in WGs, BTFs, CED events, also improving online meetings.
- Continue and improve collaboration with EDSA (European dental students association), giving the opportunity for internship in the CED Brussels office

Lodi, 20 October 2018.

Marco Landi

A handwritten signature in black ink, appearing to read 'Marco Landi', with a stylized flourish at the end.
